<b>Position title</b>	Mechanical Engineer
<b>Position status</b>	LN
<b>Position reports to</b>	M&P Team Lead
<b>Department</b>	FM
<b>Rotation pattern</b>	14/14

#### **Job purpose**

To carry out mechanical discipline work within a project team, supporting the project team for field development of facilities.

#### **Duties and Responsibilities**

1. To prepare mechanical deliverables for a project FEED in the non-hydrocarbon and hydrocarbon industry, and ensure that they conform to all applicable engineering codes and standards as well as the Client's policies and procedures.
2. To ensure that all work is completed without compromise to quality and is delivered according to the project schedule.
3. To provide direction and guidance on all mechanical engineering technical queries raised by either internal or external parties.
4. To promote safe behavior at all times.
5. To assist in technical advice and solutions to a diversity of technical problems within the discipline.
6. To assist in the coordination of all activities related to mechanical activities.
7. Implementing and completing the control of project management, project quality and progress plan of the whole project.
8. To co-ordinate with other disciplines during all stages of design development, construction, pre-commissioning, and start-up.

#### **Additional Responsibilities:**

1. Responsible for coordinating with contractors as well as AOS Team Leads.
2. Responsible for ensuring safe work practices are followed by contractors reporting to line manager according to the laid out HSSE procedures in AOS.
3. Responsible for planning of activities in the area of working of the team of Mechanical.
4. Assist with any other appropriate duties and responsibilities as and when required.
5. Ensure that the safety policies and procedures are understood and adhered to as far as reasonably practicable in order to ensure a safe working environment.
6. Perform all assigned tasks to the highest professional standards with due professional diligence and care.

#### **Qualifications**

- Diploma of Technical Institution Degree or Mechanical Engineer
- More than 2 years of relevant job experience

#### **Language proficiency, computer and software skills**

- Good skills in MS Office
- Good communication skills
- Good English Language Skills (Reading, Writing & Speaking)

<b>Position title</b>	Civil Engineer
<b>Position status</b>	LN
<b>Position reports to</b>	C&S Team Lead
